APPARATUS

WEIS FIRE™

Built by Our Family To Protect Yours.

With over 50 years dedicated to the fire-fighting industry.

Started in the early 1960's, Weis Fire is one of America's leading fire equipment companies. We manufacture top-of-the-line fire rescue trucks – but we don't consider our job finished at the end of the production line. We are with our customers every step of the way. When you take delivery of your new Weis Apparatus, it's just the beginning of our lifetime commitment to provide you with the best customer service possible.

Quick Attack

Designed to withstand.

Weis Quick Attack fire trucks are meticulously built according to your vision. Create your one-of-a-kind apparatus to take on any challenge. We offer our Quick Attacks in a variety of fire body styles to suit the needs of your department, including the NFPA 1906 Compliant WROPS (Weis Roll Over Protection System).

Southeast Weld Fire Rescue
Keenesburg, Colorado

Stallion

Bigger than any challenge.

When you need a hard-hitting response to an emergency, rely on the Weis Stallion to deliver fast results. We manufacture our tankers with some of the best components in the market at a very competitive price.

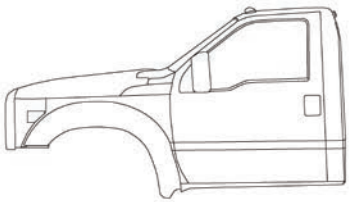
Baker Township Fire Department
Crawford County, Kansas

Light Rescue

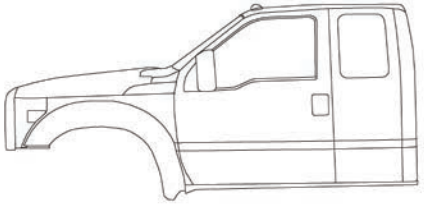
Versatility meets functionality.

Built with the highest standards possible, the Weis Light Rescue can be equipped with almost any accessory on the market, including fire pumps and nozzles to give fire-fighting capabilities.

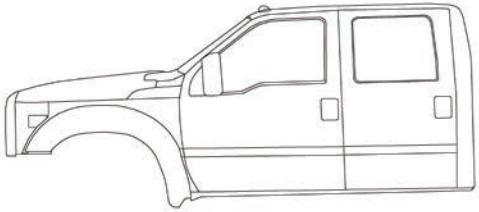
Chassis / Fire Body



REG CAB



SUPER CAB



CREW CAB

Weis Roll Over Protection

The WROPS fire body features protected seating for two with pump controls and whip lines for each passenger. This NFPA 1906 compliant roll over protection system allows passengers to ride in the outer cab while vehicle is in motion. Protection during a roll over, crush tested. NFPA compliant and SAE J1194 standards.

Walkway Fire Body

The walkway provides, a top view of the scene. Can be equipped with top mount pump controls and whip lines.

Non-Walkway Fire Body

Gives you the most space for storage options, bigger tank.

Custom Front Bumper

Our highly customizable front bumpers fit nearly all chassis makes and models and are extremely durable, giving you the best front-end protection for emergencies.

An endless variety of equipment options are available for your custom bumper and can be fitted in any configuration according to the needs and requirements for your department.

Remote Controlled Monitor
When mounted on our heavy duty bumper allows the cab occupants to fight fire on the move with accuracy and various functions for water flow.

Monitor LED Scene Light
Designed specifically to be mounted directly on the remote controlled monitor, these specialized LED lights illuminate the nozzle's targeted area.

High Pressure Ground Sweep Nozzles
Can be controlled from the in-cab console, distributing water in a wide circumference around the bumper or any part of the apparatus.

Heavy Duty Winch
Option to mounted directly to the bumper or removable for storage. Includes 100 ft. of 1/4" galvanized aircraft cable with replaceable hook.

High-powered work-light bars
Available in a variety of lengths with ultimate mounting flexibility using a tilting pedestal mount or tilting surface mount. Many lengths available with single or double row high-powered LEDs.

Emergency Speaker
Smaller size speaker with full size performance installs easily and delivers traffic clearing warning where it's needed: down and in front of your vehicle.

Bulb Light Beams
Deliver high performance in low-visibility. Vaporized aluminum over steel compound curve reflectors for maximum light output; and impact resistant polymer cases for water resistance.

Custom Whiplines
Whiplines can be fitted to the front bumper for mobile water delivery. The foldable 1" hose can be fitted in any length and includes the hand-line nozzle.

Custom Storage

We offer a variety of storage options with your choice of layout and dimensions. Every compartment we build can be modified to provide shelves, pullout trays, tool boards and many other custom features. The compartment doors can roll up or hinge depending on your preference.
